Profile

I am a highly motivated and conscientious individual currently studying for a BA in Editing and Post production with a view to working in the Film and TV industry. I am very keen on sports and have played football for a team for the past 9 years. I am also a keen athlete, competing in competitions across the UK. I am friendly, confident and outgoing and would work well in a customer facing environment. I also work well with my peers and as part of a team. I was a successful applicant on the BFI Film Academy course whereby I spent four months working collaboratively on a film as the editor using industry level equipment. Our film was screened at The Curzon cinema where I took part in a Q and A.
